Table of contents

1. SDS for Kubernetes KMS Plugin 2.0 new features and enhancements	3
2. Contact	4

In the documentation, Stormshield Data Security for Kubernetes KMS Plugin is referred to in its short form: SDS for Kubernetes KMS Plugin.

This document is not exhaustive and minor changes may have been included in this version.

1. SDS for Kubernetes KMS Plugin 2.0 new features and enhancements

Dependency update

Security update and integration of Stormshield SDK 3.0.0.

Key Access Service (KAS)

SDS for Kubernetes KMS Plugin now uses the Key Access Service (KAS) feature of the Stormshield KMaaS and no longer the Crypto API feature.

2. Contact

To contact our Stormshield Technical Assistance Center (TAC):

- <https://mystormshield.eu/>
All requests to technical support must be submitted through the incident manager in the private-access area <https://mystormshield.eu>, under Technical support > Manage cases.
- +33 (0) 9 69 329 129
In order for us to provide high-quality service, you are advised to use this communication method only to follow up on incidents that have been created earlier on <https://mystormshield.eu>.
